## User Story

- A guest user on QuickTube site will immediately see the 5 most popular YouTube videos and 5 searched videos when guest enter text into the search bar press the search button.
- Clients can choose to either create an account or login with an existing account.
- When a guest user tries to click on the “Account Setting” button or “Add to Playlist” button, they will be directed to the login page.
- If a client is creating an account they will have to choose a unique username or will be notified that their username is not unique.
- When a logged-in user press the “Search Button” with texts in the search box, the input text will be recorded.
- Logged-in users can add their favorite videos to their personal playlist by clicking the “Add to Playlist” button.
- Clients can then click on the “Account Setting” button to see their search history and personal playlist.
- In the Account Setting page clients can choose to delete videos from their playlist and change the password for their account.
- At anytime when a user is logged in they can click the “Logout” button to logout of their account.
